SUMMARY

Innovative and results-driven full stack developer with over three years of experience in designing, developing, and deploying dynamic web applications. Proficient in both front-end and back-end technologies, with a keen eye for creating seamless user experiences and robust backend systems. Adept at managing all phases of the software development lifecycle for diverse projects.

PROJECT AND EXPERIENCE

Trao Kitchen – Restaurant E-Commerce Platform (MERN Stack)

<https://trao-kitchen-frontend.onrender.com>

- Designed and developed a food ordering and selling platform for a restaurant using MongoDB, Express, React, and Node.js.
- Implemented a secure authentication system with JWT and bcrypt.
- Integrated a real-time order tracking system and payment gateway (Stripe).
- Optimized UI/UX for responsiveness across different devices.

YouTube Clone (React.js, Google API)

<https://youtube-blush-eight.vercel.app>

- Built a fully responsive YouTube clone using React.js and YouTube Data API v3 for real-time video fetching.
- Implemented search functionality, video recommendations, and dynamic routing for a seamless user experience.
- Utilized Material UI for styling and Redux for state management.

Netflix Clone (React.js, Firebase, TMDb API)

<https://netflix-opal-ten.vercel.app>

- Developed a Netflix-inspired movie streaming platform using React.js and Firebase Authentication.
- Integrated TMDb API to fetch and display trending movies and series dynamically.
- Implemented a secure user authentication system using Firebase Auth.
- Added lazy loading and infinite scrolling for a smooth viewing experience.

Multi-Vendor Agricultural E-Commerce Platform (WordPress, WooCommerce)

<https://www.kaymax.ng>

- Built a multi-vendor marketplace for agricultural products using WordPress & WooCommerce.
- Configured vendor dashboards, custom product listings, and secure payment methods.
- Optimized SEO and site performance for better search engine ranking.
- Integrated order tracking and vendor management features.

SKILLS

Front-End: HTML5, CSS3, Bootstrap, JQuery, JavaScript, React.js.

Back-End: Node.js, Express.js, PHP, PHP OOP, Laravel.
